Explanation:If the real rates of interest are equal, the country with the higher nominal interest rate is expected to experience a higher rate of inflation. A higher rate of inflation is associated with a devaluing currency, so the currency of the country with the higher nominal interest rate will likely be selling at a forward discount.

NEW QUESTION: 3OverviewFabrikam, Inc. is an international pharmaceutical company that has 2,500 employees in the following roles:2,000 research employees300 administrative employees75 sales employees who work remotely125 distribution and warehousing employees Existing EnvironmentCurrent infrastructureFabrikam has an on-premises server farm that runs Windows Server 2012 R2, Microsoft SharePoint Server 2013, and Microsoft Exchange Server 2013. The products are used to support the following:The research department runs sophisticated document management and workflow systems.The distribution and warehousing employees only access the company's intranet.All employees use various versions of Microsoft Office to access existing documents. All employees create documents except for the employees in the distribution and warehousing department.Fabrikam has a custom enterprise resource planning (ERP) tool that currently requires Microsoft SQL Server 2012.The server farm contains the following 10 servers:Two servers that each have two 2-core processors Three servers that each have two 4-core processorsFive servers that each have four 8-core processorsCurrent Licensing SolutionFabrikam signed Microsoft Products and Services Agreement (MPSA) three years ago and used it to purchase on-premises software without Software Assurance (SA). The company also used the agreement to trial some online services, such as Office 365. This transactional method of purchasing licenses has served them well. RequirementsBusiness GoalsFabrikam must upgrade its entire Windows Server and SQL Server

infrastructure during the next six months to support an update to its ERP tool. Moving forward, the most up-to-date version of these server products must always be deployed. Fabrikam wants to improve the management of the on-premises servers by using Microsoft System Center. Fabrikam wants to minimize the cost of licensing, whenever possible. Fabrikam plans to implement a bring-your-own device (BYOD) policy. The new policy will allow employees access to Office, corporate data, and corporate resources. The IT department is concerned about extra work involved in managing and securing the devices. Fabrikam plans to move to Windows 10 Enterprise E3 to take advantage of the product's enhanced security features. Licensing Requirements Fabrikam employs students from July to September. The company wants to license the students only for the period during which they work. This question requires that you evaluate the underlined text to determine if it is correct. Fabrikam should purchase the licenses for Windows Server and System Center through a Server and Cloud Enrollment (SCE). Review the underlined text. If it makes the statement correct, select "No change is needed."
