Adobe Premiere Pro CS5 ACE Exam (9A0-154) Study guide Content Orientation.

NEW QUESTION: 1You are a licensing specialist. Your customer is Wingtip Toys, a growing company that specializes in toys and computer games. Company Background Wingtip Toys has 45 full-time employees and 10 part-time employees. The company is opening another division for high-end electronics and games. Twenty additional employees will be hired to support this division. Network Description Forty-five desktops are used by the full-time employees. Five additional desktops are shared among the part-time employees. A single server runs Microsoft Small Business Server 4.5 for the 50 desktops. All desktops run Microsoft Windows 98 and Microsoft Office 97 Professional. Current Licensing Solution All software is purchased at the local computer store. The software budget is small. The server software refresh cycle is four years. Business Goals The IT manager of Wingtip Toys wants a solution that will simplify managing the company's increasing number of desktops. The IT manager has the following goals: Standardize all desktops on the latest versions of desktop application software, and stay current. Upgrade the server software. Purchase new desktops for the 20 new employees. Improve security for the part-time employees who share computers. End of repeated scenario You need to recommend the most appropriate server upgrade solution. What additional information do you need? **A.** current IT support structure **B.** expected increase in the number of employees over the next three years **C.** expected sales growth over the next three years **D.** whether new server hardware will be purchased **Answer: B**

NEW QUESTION: 2What is the purpose of conducting security assessments on network

resources? **A. Validation** **B. Management** **C. Implementation** **D. Documentation** **Answer: A**

NEW QUESTION: 3 In which mode is CTI used with Cisco Unified Personal Communicator? **A. IP phone mode** **B. desk-phone mode** **C. IP communicator mode** **D. soft-phone mode** **E. CTI mode**

Answer: B Explanation: Desk Phone Control and the CTI Connection Failures The CTI gateway provides desk phone control (phone-association mode) to Cisco Unified Personal Communicator users. You must specify CTI gateway server names, addresses, ports, and protocol types on Cisco Unified Presence so that the information required to reach the CTI gateway server can be downloaded when the user logs in to Cisco Unified Personal Communicator. If the CTI connection to Cisco Unified Communications Manager is lost while Cisco Unified Personal Communicator is operating in desk phone mode, the application tries to reestablish the connection to the primary and then to the backup servers. Connection attempts continue on a round-robin basis, beginning again with the primary server. Successive attempts to reconnect to a server occur at intervals of 4, 8, 16, 32, and 60 seconds (maximum) until a connection is re-established. Link:
