Every question provides you with demo and **Dump ACP-01101 File** if you think our exam dumps are good, you can immediately purchase it, It is regularly updated by our experts for keeping it always compatible to the needs and requirements of exam ACP-01101 candidates.

NEW QUESTION: 1Your customer decides to implement Cloud Procurement and Inventory. While discussing with your customer, you come to know that they have a business that spans across multiple locations and they have warehouse situated across USA and Canada.* All their procurement, payables, and distribution activities take place from USA.* They have a central warehouse in USA and after the goods are delivered to this warehouse, they are distributed across multiple additional warehouses. The warehouses are managed separately from the requisitioning units.* For requesting material they have two units. One located in USA that monitors the current stock. They are responsible for creating requisition for any material shortage in USA. They have another location in Canada for requesting material.Which setup fulfills this scenario?**A.** BU1: USA - as procurement and requisitioning Business Unit (BU)BU2: Canada - as requisitioning Business UnitDefine Service provider relationship where Canada procurement business unit serves as procurement and payables service provider for Canada Requisitioning Business Unit.**B.** BU1: USA - as procurement business unit (BU)BU2: Canada - as requisitioning business unitBU3: USA- as requisitioning business unitDefine Service provider relationship where Canada procurement business unit serves as procurement and payables service provider for Canada Requisitioning Business Unit.**C.** BU1: USA - as procurement business unit (BU)BU2: Canada - as requisitioning business unitBU3: USA- as requisitioning business unitDefine Service provider relationship where USA procurement business unit serves as procurement and payables service provider for Canada Requisitioning Business Unit.**D.** BU1: USA - as procurement business unit (BU)BU2: Canada - as requisitioning business unitBU3: USA - as requisitioning business unitDefine Service provider relationship where USA procurement business unit serves as procurement and payables service provider for both Canada and USA requisitioning Business Units.**Answer: A**

NEW QUESTION: 2You work as a project manager for BlueWell Inc. You are creating the activity list for the project. The activity list is based on the work packages defined in the project's WBS. Activities provide a basis for all of the following information except for which one?**A.** Estimates **B.** Scope baseline**C.** Scheduling**D.** Executing**Answer: B**Explanation:Explanation/Reference: Explanation:The project's scope baseline is not derived or provided by the project's activity list. The scope baseline is made of the project's WBS, WBS Dictionary, and the Project Scope Statement. The activity list provides for estimating, scheduling, executing, and monitoring and

controlling the project work. The scope baseline is an element of the project management plan. The contents of the scope baseline include the following: Project scope statement: It includes the product scope description and the project deliverables, and defines the product user acceptance criteria. WBS: It defines each deliverable and the decomposition of the deliverables into work packages. WBS dictionary: It contains the detailed description of work and technical documentation for each WBS element. Incorrect Answers: B: Activities are executed in the project. C: Activities are scheduled as part of project planning. D: Estimates do provide a basis for creating time and cost estimates.
