NEW QUESTION: 1 Which tool is used in Cisco DNA Center to build generic configurations that are able to be applied on device with similar network settings? **A.** Command Runner **B.** Template Editor **C.** Application Policies **D.** Authentication Template **Answer: B**
Explanation: Cisco DNA Center provides an interactive editor called Template Editor to author CLI templates. Template Editor is a centralized CLI management tool to help design a set of device configurations that you need to build devices in a branch. When you have a site, office, or branch that uses a similar set of devices and configurations, you can use Template Editor to build generic configurations and apply the configurations to one or more devices in the branch.
