NEW QUESTION: 1A company implements Dynamics 365 for Finance and Operations and sets up and configures the system to support its reporting requirements using Microsoft Power BI. A user creates a chart in her Power BI instance to display customer order patterns for the top 10 customers daily. You need to configure the Power BI integration to pin the chart to the user's workspace in Dynamics 365 for Finance and Operations. Which three actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point. **A.** In the Entity store, configure the Application ID and Application key for Power BI. **B.** In Microsoft Azure Active Directory, add the Power BI service to the app registration and grant the necessary delegated permissions. **C.** In the Dynamics 365 for Finance and Operations client, authorize sign-in to Power BI. **D.** In Azure Active Directory, grant the customer services manager administrative permissions to the company's Azure Active Directory account to run the report. **E.** In the Dynamics 365 for Finance and Operations System administration setup screen in PowerBI.com, configure the application ID and application key. **Answer: B,C,E**
Explanation: Explanation
