Why do you take a shortcut while facing difficulties, After installment you can use C1000-161 practice questions offline, Our company has been focusing on the protection of customer privacy all the time.

**NEW QUESTION: 1** Lily works as a project manager for BlueWell Inc. She has recorded the following duration estimates for an activity in her project: optimistic 35, most likely 50, and pessimistic 95. What time will she record for this activity? **A. 0 B. 1 C. 2 D. 3**  
**Answer: B**  
**Explanation:** This is an example of three-point estimate. A three-point estimate records the optimistic, most likely, and the pessimistic duration and then records an average for the predicted duration. Three-point estimate is a way to enhance the accuracy of activity duration estimates. This concept is originated with the Program Evaluation and Review Technique (PERT). PERT charts the following three estimates: Most likely (TM): The duration of activity based on realistic factors such as resources assigned, interruptions, etc. Optimistic (TO): The activity duration based on the best-case scenario Pessimistic (TP): The activity duration based on the worst-case scenario The expected (TE) activity duration is a weighted average of these three estimates:  $TE = (TO + 4TM + TP) / 6$  Duration estimates based on the above equations (sometimes simple average of the three estimates is also used) provide more accuracy. Here, it is,  $TE = (35 + 50 \times 4 + 95) / 6 = 330 / 6 = 55$

**NEW QUESTION: 2** A customer is attempting to download a file from a remote FTP server, but receives an error that a connection cannot be opened. Which of the following should be one FIRST to resolve the problem? **A. Ensure that port 20 is open B. Ensure that port 161 is open C. Flush the DNS cache on the local workstation D. Validate the security certificate from the host**  
**Answer: A**

**NEW QUESTION: 3** How can an administrator access a record of alerts in the iDRAC GUI? **A. Troubleshooting > Lifecycle Log B. System > Details C. System > Overview D. Maintenance > System Event Log**  
**Answer: B**
