NEW QUESTION: 2Refer to the exhibit. Which options does the exhibit describe?**A.** Business roadmap**B.** Account plan**C.** Technology project plan**D.** Technical reference architecture**Answer: A****Explanation:** Business RoadmapThe value of a business architecture approach is the creation of a business roadmap. The business roadmap establishes the plan that enables the business to transform from its current business state to its target business state. Throughout the business-led engagement, the Cisco Business Architect works with the customer to align business priorities with business outcomes. This alignment is done by defining the business capabilities and business solutions. The business roadmap aligns business priorities and solutions to deliver business capabilities. An implementation timeline is established that is based on the importance of the priority and the business outcomes. Each business solution is categorized as a foundation, enabling, or impacting solution: Foundation: Solutions needed to provide a reliable foundation upon which to build business applications and services Enabling: Solutions that support business priorities or higher-level solutions Impacting: Highest impact to the business priorities that are potentially transformational or absolutely essential for the business The four priorities in the roadmap are customer experience, revenue generation, digital banking, and customer data sovereignty. The priorities have defined business solutions.

Customer Experience1. Cross Sales and Service Channels2. Business and IT AgilityRevenue Generation1. Integrated Product Marketing and Fulfillment2.
