Stimuli of final aim, Once the update comes out, we will inform our customers who are using our HP2-I57 exam bootcamp so that they can have a latest understanding of HP2-I57 actual test.

**NEW QUESTION: 1**Your network contains a Windows Server Update Services (WSUS) server named Server1. All client computers are configured to download updates from Server1. Server1 is configured only to synchronize manually to Microsoft Update.Your company deploys a new Microsoft application. You discover that the new application is not listed on the Products and Classifications list. You synchronize the WSUS server. You need to ensure that updates for the new application are available to all of the client computers.What should you do?To answer, move the appropriate actions from the Possible Actions list to the Necessary Actions area and arrange them in the correct order.Select and Place:**Answer:** Explanation:Explanation:We are explicitly told the application is not on the Products and Classifications list, so we need to first customize that list to include our new application.After that is done, we'll have to synchronize the server again (see reference below). Finally, we need to approve the updates so they become available to clients."You may have to do an initial synchronization to get some products to appear in the list of product classifications."Reference:
