NEW QUESTION: 1 Which of the following cloud deployment model is provisioned for open use by the general public?
A. Public Cloud
B. Hybrid Cloud
C. Private Cloud
D. Community Cloud

Answer: A
Explanation: Explanation/Reference: Explanation: In Public cloud, the cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider. For your exam you should know below information about Cloud Computing deployment models: Private cloud The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises. Private Cloud Image Reference - <http://www.inflectionpoint.co.uk/Portals/5/VMware-vCloud.jpg> Community Cloud The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises. [HybridCloud-Computing-Solution1.jpg](http://www.virtualizationpractice.com/wp-content/uploads/2013/04/HybridCloud-Computing-Solution1.jpg) Incorrect Answers: A: Private cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises. B: Community cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist

on or off premises. D: Hybrid cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds) References: CISA review manual 2014 page number 102 Official ISC2 guide to CISSP 3rd edition Page number 689 and 690

NEW QUESTION: 2 A computer is found to be infected with malware and a technician re-installs the operating system. The computer remains infected with malware. This is an example of: **A.** Spyware. **B.** a rootkit. **C.** an exploit kit. **D.** a MBR infection. **Answer: D** Explanation: Explanation/Reference: Explanation: An MBR infection is malware that is installed into the Master Boot Record (MBR) of a hard disk. Reinstalling the operating system does not remove the malware from the MBR. A 'Bootkit' is a rootkit that infects the Master Boot Record. Bootkits are an advanced form of rootkits that take the basic functionality of a rootkit and extend it with the ability to infect the master boot record (MBR) or volume boot record (VBR) so that the bootkit remains active even after a system reboot. Bootkits are designed to not only load from the master boot record but also remain active in the system memory from protected mode through the launch of the operating system and during the computer's active state.

NEW QUESTION: 3 The Project Manager is working with the customer to gain formal acceptance on the project deliverables. The customer is saying that three of the deliverables are not meeting project goals, and are unusable in their present form. Which of the following will be used to the problem? **A.** Team-building **B.** Scope Verification **C.** Scope analysis **D.** Scope Control **Answer: D**
