**Answer: B**

**NEW QUESTION: 3** **A.** Option A **B.** Option E **C.** Option D **D.** Option B **E.** Option C  
**Answer: C, E**  
Explanation: C: Access cannot be assigned directly to a shared member. You assign access rights to shared members in one of two ways: \*From the security assigned directly to the base member\* From the security assigned at the parent or ancestor of the shared member D: You can create multiple shared members for the base member. A base member must exist before you can create a shared member, but there is no limit to the number of shared members you can create for the base member. E: Shared members are available for Entity, Account, and user-defined custom dimensions." Shared members contain read-only values and are only available in the Entity dimension. "
