### NEW QUESTION: 1

あなたの会社は1週間でセキュリティ監査を受けます。マネージャーから、Object Storageバケットから最近のログをダウンロードして確認するように依頼されました。現在のログアーカイブファイルのサイズは約19 GBです。アーカイブファイルをできるだけ早くダウンロードするには、どのコマンドを実行しますか？

A) `oci os object get -ns my-namespace -bn my-bucket --name my-large-object --multipart-download-threshold2000 --part-size 120`  
B) `oci os object get -ns my-namespace -bn my-bucket --name my-large-object --multipart-download-threshold2000 --part-size 128`  
C) `oci os object put -ns my-namespace -bn my-bucket --name my-large-object --multipart-download-threshold20000 --part-size 128`  
D) `oci os object get -ns my-namespace -bn my-bucket --name my-large-object --multipart-download-threshold20000 --part-size 128`

**Answer: D**  
**Explanation:** Large files can be downloaded from Object Storage in multiple parts to speed up the download. You can configure the following options for the `oci os object get` command:  
`--multipart-download-threshold` lets you specify the size, in MiB at which an object should be downloaded in multiple parts. This size must be at least 128 MiB.  
`--part-size`, in MiB, to use for a download part. This gives you the flexibility to use more (smaller size) or fewer (larger size) parts as appropriate for your requirements. For example, compute power and network bandwidth. The default minimum part size is 120 MiB.  
`--parallel-download-count` lets you specify how many parts are downloaded at the same time. A higher value may improve times but consume more system resources and network bandwidth. The default value is 10.  
The following example shows the command to download any object with a size greater than 500 MiB. The object is downloaded in 128 MiB parts  
`oci os object get -ns my-namespace -bn my-bucket --name my-large-object --multipart-download-threshold500 --part-size 128 --multipart-download-threshold [integer range]`  
Objects larger than this size (in MiB) will be downloaded in multiple parts. The minimum allowable threshold is 128 MiB.

**NEW QUESTION: 2** How Does the Speaker Feel about War? War Is Kind  
Do not weep, maiden, for war is kind.  
Because your lover threw wild hands toward the sky  
And the affrighted steed ran on alone,  
Do not weep. War is kind. Hoarse, booming drums of the regiment  
Little souls who thirst for fight,  
These men were born to drill and die  
The unexplained glory flies above them  
Great is the battle-god, great, and his kingdom  
-A field where a thousand corpses lie.  
Do not weep, babe, for war is kind.  
Because your father tumbled in the yellow trenches,  
Raged at his breast, gulped and died,  
Do not weep. War is kind. Swift, blazing flag of the regiment  
Eagle with crest of red and gold,  
These men were born to drill and die  
Point for them the virtue of slaughter  
Make plain to them the excellence of killing  
And a field where a thousand corpses lie.  
Mother whose heart hung humble as a button  
On the bright splendid shroud of your son,  
Do not weep. War is kind.  
- Stephen Crane, 1899  
Which of the following words best describes the tone of the poem?  
**A.** angry  
**B.** celebratory  
**C.** sarcastic  
**D.** tender  
**E.** mournful  
**Answer: C**  
**Explanation:**

**Explanation/Reference:** Explanation: The tone of the poem, especially of the line "war is kind," is sarcastic; the poem shows how war is cruel in taking the lives of the soldiers. The sarcasm is particularly clear in lines 25-26: "Point for them the virtue of slaughter / Make plain to them the

excellence of killing." Choice a is incorrect; there is no celebration in the poem. The lover, child, and mother all mourn (choice b) and they may be angry (choice c), but the dominant tone is sarcasm. There is tenderness expressed in a few lines, such as 28-29:"Mother whose heart hung humble as a button/ On the bright splendid shroud of your son," but these tender lines only serve to heighten the sarcasm of the final line, "Do not weep. / War is kind."

**NEW QUESTION: 3A.** Option DB. Option CC. Option FD. Option BE. Option AF. Option E

**Answer: A,B,D**Explanation:How To Configure Frame Relay Subinterfaces

<http://www.orbit-computer-solutions.com/How-To-Configure-Frame-Relay-Subinterfaces.php>  
Step to configure Frame Relay subinterfaces on a physical interface:1.Remove any network layer address (IP) assigned to the physical interface. If the physical interface has an address, frames are not received by the local subinterfaces.2.Configure Frame Relay encapsulation on the physical interface using the encapsulation frame-relay command.3.For each of the defined PVCs, create a logical subinterface. Specify the port number, followed by a period (.) and the subinterface number. To make troubleshooting easier, it is suggested that the subinterface number matches the DLCI number.4.Configure an IP address for the interface and set the bandwidth.5.Configure the local DLCI on the subinterface using the frame-relay interface-dlci command. Configuration Example: R1>enable R1#configure terminal R1(config)#interface serial 0/0/0 R1(config-if)#no ip address R1(config-if)#encapsulation frame-relay R1(config-if)#no shutdown R1(config-if)#exit R1(config-subif)#interface serial 0/0/0.102 point-to-point R1(config-subif)#ip address 192.168.1.245 255.255.255.252 R1(config-subif)#frame-relay interface-dlci 102 R1(config-subif)#end R1#copy running-config startup-config
