**NEW QUESTION: 1** Which of the following is not a money market security?  
**A.** common stock  
**B.** commercial paper  
**C.** Treasury bills  
**D.** negotiable certificates of deposit  
**Answer: A**  
**Explanation:** Common stock is not a money market security. Money market securities mature in one year or less. Common stock has no maturity.

**NEW QUESTION: 2** # nat (inside,outside) dynamic interface  
**A.** Option A  
**B.** Option C  
**C.** Option D  
**D.** Option B  
**Answer: B**  
**Explanation:** Configuring Dynamic NAT  
nat (inside,outside) dynamic my-range-obj  
Configuring Dynamic PAT (Hide)  
nat (inside,outside) dynamic interface  
Source: [http://www.cisco.com/c/en/us/td/docs/security/asa/asa83/configuration/guide/config/nat\\_objects.html](http://www.cisco.com/c/en/us/td/docs/security/asa/asa83/configuration/guide/config/nat_objects.html)

**NEW QUESTION: 3** You work as a Database Administrator for Softech Inc. You want to create network connections, such as Local Area Networks (LANs) and Internet connections. Which of the following applets will you use to accomplish this task?  
**A.** Network Connections  
**B.** Accessibility Options  
**C.** Internet Options  
**D.** Folder Options  
**Answer: A**  
**Explanation:** The Network Connections option displays and permits a user to edit or create network connections, such as Local Area Networks (LANs) and Internet connections. It also provides troubleshooting functions in case the computer has to be reconnected to the network. answer B is incorrect. This cannot be used to accomplish the task. Following are the attributes of Internet Options:  
1. General: This specifies the homepage and color schemes and permits the user to delete Internet usage history.  
2. Security & Privacy: These specify whether the computer should permit websites to start certain processes and download cookies. This panel also gives access to the inbuilt pop-up blocker and the phishing controls.  
3. Content: It permits the parental controls and auto-complete to be configured and also specifies how to deal with certificates.  
4. Connections, Programs, and Advanced: These give access to other aspects of Internet settings such as the default modem connection and email client, proxy settings, and other advanced configurations. answer C is incorrect. Accessibility Options permit users to organize the accessibility of their computer. This option comprises a variety of settings mainly aimed at users with disabilities or hardware problems. answer D is incorrect. This option allows for configuration of how folders and files are presented in Windows Explorer. It is basically used to configure folders in the computer system.

**NEW QUESTION: 4** A site reliability engineer updated the latest configuration management scripts and committed them to a workstream called either test or patch. A Linux administrator wants to ensure these latest workstreams are able to be retrieved to the server. Which of the following is the BEST Git attribute to use?  
**A.** pull  
**B.** fetch  
**C.** log  
**D.** branch  
**Answer: A**
