NEW QUESTION: 1When hypnotized subjects are told that they are deaf and are then asked whether they can hear the hypnotist, they reply, "No." Some theorists try to explain this result by arguing that the selves of hypnotized subjects are dissociated into separate parts, and that the part that is deaf is dissociated from the part that replies. Which of the following challenges indicates the most serious weakness in the attempted explanation described above?**A.** Why do hypnotized subjects all respond the same way in the situation described?**B.** Why do the subjects appear to accept the hypnotist's suggestion that they are deaf?**C.** Why are the separate parts of the self the same for all subjects?**D.** Why are the observed facts in need of any special explanation?**E.** Why does the part that replies not answer, "Yes"?**Answer: E**Explanation: Explanation/Reference:Explanation:

NEW QUESTION: 2You have a computer that runs Windows 10. You can start the computer but cannot sign in. You need to start the computer into the Windows Recovery Environment (WinRE).
