We will provide you with comprehensive study experience by give you 700-695 training guide torrent, If you choose our 700-695 exam guide materials we can assure you that you will receive the renewal version for free during the whole Cheap 700-695 Dumps year, which is really a piece of good news for examinees in Cisco field, do not miss the good opportunity!

If you are unfamiliar with our 700-695 study materials, please download the 700-695 free demos for your reference, and to some unlearned exam candidates, you can master necessities by our 700-695 practice materials quickly.

NEW QUESTION: 1 Which Is NOT an Ideal profile for a SaaS Solution Provider?
A. Telco **B.** Value Added Service Provider **C.** Retail On-premises Software Provider **D.** Cloud Services Broker
Answer: C

NEW QUESTION: 2 SZENARIO Bitte verwenden Sie Folgendes, um die nächste Frage zu beantworten: Building Block Inc. ist ein multinationales Unternehmen mit Hauptsitz in Chicago und Niederlassungen in den USA, Asien und Europa (einschließlich Deutschland, Italien, Frankreich und Portugal). Letztes Jahr war das Unternehmen Opfer eines Phishing-Angriffs, der zu einem erheblichen Datenverstoß führte. Der Vorstand beschloss in Abstimmung mit dem Geschäftsführer, seinem Datenschutzbüro und dem Informationssicherheitsteam, zusätzliche Sicherheitsmaßnahmen zu ergreifen. Dazu gehörten Schulungsaufklärungsprogramme, ein Cybersicherheitsaudit und die Verwendung eines neuen Softwaretools namens SecurityScan, mit dem die Computer der Mitarbeiter überprüft werden, um festzustellen, ob sie über Software verfügen, die nicht mehr von einem Anbieter unterstützt wird und daher keine Sicherheitsupdates erhält. Diese Software bietet jedoch auch andere Funktionen, einschließlich der Überwachung der Computer der Mitarbeiter. Da sich diese Maßnahmen möglicherweise auf die Mitarbeiter auswirken würden, hat das Datenschutzbüro von Building Block beschlossen, allen Mitarbeitern einen allgemeinen Hinweis zukommen zu lassen, in dem darauf hingewiesen wird, dass das Unternehmen eine Reihe von Initiativen zur Verbesserung der Informationssicherheit und zur Verhinderung künftiger Datenschutzverletzungen durchführen wird. Nach der Implementierung dieser Maßnahmen nahm die Serverleistung ab.

Der General Manager wies das Sicherheitsteam an, wie mit SecurityScan die Computeraktivität der Mitarbeiter und ihr Standort überwacht werden können. Während dieser Aktivitäten stellte das Informationssicherheitsteam fest, dass ein Mitarbeiter aus Italien täglich eine Verbindung zu einer Videobibliothek mit Filmen herstellte und ein anderer aus Deutschland ohne Genehmigung remote arbeitete. Das Sicherheitsteam meldete diese Vorfälle dem Datenschutzbüro und dem General Manager. In ihrem Bericht kam das Team zu dem Schluss, dass der Mitarbeiter aus Italien der Grund für die Abnahme der Serverleistung war. Aufgrund der Schwere dieser Verstöße beschloss das Unternehmen, Disziplinarmaßnahmen gegen beide Mitarbeiter anzuwenden, da die Sicherheits- und Datenschutzrichtlinien des Unternehmens es den Mitarbeitern untersagten, Software auf den Computern des Unternehmens zu installieren und ohne Genehmigung remote zu arbeiten. Was hätte Building Block als ersten Schritt vor der Implementierung der SecurityScan-Maßnahme tun müssen, um die DSGVO einzuhalten?**A.** Bewertung potenzieller Datenschutzrisiken durch Durchführung einer Datenschutz-Folgenabschätzung.**B.** Konsultiert die zuständige Datenschutzbehörde zu möglichen Datenschutzverletzungen.**C.** Konsultiert das Informationssicherheitsteam, um Sicherheitsmaßnahmen gegen mögliche Auswirkungen auf den Server abzuwägen.**D.** Verteilte eine umfassendere Mitteilung an die Mitarbeiter und erhielt deren ausdrückliche Zustimmung.
Answer: D

NEW QUESTION: 3 The MOST appropriate owner of customer data stored in a central database, used only by an organization's sales department, would be the:**A.** chief information officer (CIO).**B.** database administrator.**C.** sales department.**D.** head of the sales department.**Answer: D**
Explanation: The owner of the information asset should be the person with the decision-making power in the department deriving the most benefit from the asset. In this case, it would be the head of the sales department. The organizational unit cannot be the owner of the asset because that removes personal responsibility. The database administrator is a custodian. The chief information officer (CIO) would not be an owner of this database because the CTO is less likely to be knowledgeable about the specific needs of sales operations and security concerns.
