Answer: A

NEW QUESTION: 4 Your company has offices in London and Paris. Each office has several hundred computers that run Windows 10. You deploy System Center Configuration Manager (Current Branch) and add a Microsoft Intune subscription. You plan to manage all the Windows 10 computers as mobile devices. You deploy the device management point, Enrollment proxy point, and Enrollment point site system roles. You need to ensure that the devices in the London office are enrolled by the London office users, and that the devices in the Paris office are bulk-enrolled. What should you do from the Configuration Manager console for each office? To answer, drag the appropriate actions to the correct offices. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.
Answer: Explanation:
