NEW QUESTION: 1A company has the following business units:* Call center* Customer service* Digital response* EscalationThe security roles have not been modified. The customer service business unit is the parent of all other business units. Each business unit has its own queues. Customer service cases are routed to the appropriate individuals by using the queues.You need to ensure that a specific user within the customer service business unit can read all queues within the parent and child business units.Which security role should you assign to the user?**A.** Customer service manager**B.** System customizer**C.** Customer service representative**D.** Scheduler**Answer: A**

NEW QUESTION: 2What was the founding idea of quality improvement, as espoused by W. Edwards Deming?**A.** Defects can be reduced infinitely.**B.** Employees should continuously improve.**C.** The customer is the ultimate judge of quality.**D.** Design is more important than function.**Answer: C****Explanation:**Explanation: The founding idea of quality improvement, as espoused by W.Edwards Deming, is that the customer is the ultimate judge of quality. This simple insight, made in the early 1940s, radically changed the way business has been done thereafter. Before Deming, businesses relied on their own metrics and assessments of product quality. After him, they began to ask their customers about what constitutes quality, and make changes accordingly.

NEW QUESTION: 3When specifying, who is to provide the valuation services, the important distinction is whether the client is retaining the appraisal firm itself or the individual appraiser employed by the firm. The common practice is:**A.** To retain the firm rather than individual appraiser, even though the expert witnesses testify based upon their individual expertise and

opinions **B.** To retain the individual since the firm is responsible for completing the assignment regardless of impairment the individual's capability to perform the work **C.** To retain the individual appraiser rather than the firm **D.** To retain firm as such practice also tends to provide discontinuity in retention of working papers and related records, marking them accessible if they are needed months or even years-later as they frequently are **Answer: A**
