NEW QUESTION: 1 Given: What is the result?
A. String main 123
B. String main 1 2 3
C. String main 1
D. An exception is thrown at runtime
Answer: C

NEW QUESTION: 2 In all three distributed vRealize Automation architecture designs, which port must be available to all vRA servers?
A. 0
B. 1
C. 2
D. 3
Answer: D

NEW QUESTION: 3 회사의 고정 자산 잔고는 다음과 같습니다.
A. US \$ 16
B. US \$ 0
C. US \$ 64
D. 58 달러
Answer: D
Explanation: Total assets given as US \$100) equals the sum of cash given as US \$10), accounts receivable US \$26), inventory, and fixed assets. Inventory can be determined because it is included in current, but not quick, assets, and the current and quick ratios are known. Current assets equal US \$42 (1.4 current ratio x \$30 current liabilities), and the quick assets equal US \$36 (1.2 quick ratio = \$30 current liabilities). Thus, inventory, which is the only difference in this question between current and quick assets, equals US \$6 (\$42 - \$36). Fixed assets must then equal US \$58 (\$100 total assets - \$10 cash - \$26 accounts receivable - \$6 inventory).

NEW QUESTION: 4 Examine the DHCP configuration between R2 and R3; R2 is configured as the DHCP server and R3 as the client. What is the reason R3 is not receiving the IP address via DHCP?
A. On R2, the network statement in the DHCP pool configuration is incorrectly configured.
B. On R3, DHCP is not enabled on the interface that is connected to R2.
C. On R2, the interface that is connected to R3 is in shutdown condition.
D. On R3, the interface that is connected to R2 is in shutdown condition.
Answer: B
Explanation: Explanation/Reference:
Explanation: First we should check which interface on R3 that is connected to R2 via the "show run" command. From the description we learn interface E0/1 is connected to R2. Use the "show ip interface brief" command to verify the IP address of this interface. Therefore, we can conclude this interface does not have any IP address and there is no configuration on this interface (except the "description Link to R2" line). If R3 wants to receive an IP address from R2

via DHCP, interface E0/1 should be configured with the command "ip address dhcp" so the answer "DHCP is not enabled on this interface" is correct.
