**NEW QUESTION: 2**In 2001, Continental Supply Company was formed to provide drilling equipment and supplies to contractors and oilfield production companies located throughout the United States. At the end of 2005, Continental Supply created a wholly owned foreign subsidiary, International Oilfield Incorporated, to begin servicing customers located in the North Sea. International Oilfield maintains its financial statements in a currency known as the local currency unit (LCU). Continental Supply follows U.S. GAAP and its presentation currency is the U.S. dollar. For the years 2005 through 2008, the weighted-average and year-end exchange rates, stated in terms of local currency per U.S. dollar, were as follows: International Oilfield accounts for its inventory using the lower-of-cost-or-rnarl cet valuation method in conjunction with the first-in, first-out, cost flow assumption. All of the inventory on hand at the beginning of the year was sold during 2008. Inventory remaining at the end of 2008 was acquired evenly throughout the year. On June 30, 2008, International Oilfield purchased equipment totaling LCU 225 million when the exchange rate was LCU 1.25 to \$1. For the years 2007 and 2008, Continental Supply reported International Oilfield revenues in its consolidated income statement of \$375 million and \$450 million, respectively. There were no inter- company transactions. Following are International Oilfield's balance sheets at the end of 2007 and 2008: At the end of 2008, International Oilfield's retained earnings account was equal to \$525 million and, to date, no dividends have been paid.
