NEW QUESTION: 1BCDR strategies typically do not involve the entire operations of an organization, but only those deemed critical to their business.Which concept pertains to the required amount of time to restore services to the predetermined level?**A. SREB. RSLC. RTOD. RPO****Answer: C****Explanation:**Explanation/Reference:Explanation:The recovery time objective (RTO) measures the amount of time necessary to recover operations to meet the BCDR plan. The recovery service level (RSL) measures the percentage of operations that would be recovered during a BCDR situation. The recovery point objective (RPO) sets and defines the amount of data an organization must have available or accessible to reach the predetermined level of operations necessary during a BCDR situation. SRE is provided as an erroneous response.
