NEW QUESTION: 1 Which CAPWAP AP management-access method is available as the default setting?
A. the console port, SSH, and HTTPS
B. the console port and SSH
C. SSH only
D. only the console port
Answer: D
Explanation: After an access point joins the controller, the access point enables console port security only, and you are prompted for your username and password whenever you log into the access point's console port. When you log in, you are in non-privileged mode, and you must enter the enable password in order to use the privileged mode.
