**NEW QUESTION: 2**Examine the exhibit below; then answer the question following it. In this scenario, the FortiGate unit in Ottawa has the following routing table: Sniffer tests show that packets sent from the source IP address 172.20.168.2 to the destination IP address 172.20.169.2 are being dropped by the FortiGate located in Ottawa. Which of the following correctly describes the cause for the dropped packets? **A.** The reverse path forwarding check. **B.** The forward policy check. **C.** The subnet 172.20.169.0/24 is NOT in the Ottawa FortiGate's routing table. **D.** The destination workstation 172.20.169.2 does NOT have the subnet 172.20.168.0/24 in its routing table. **Answer: A**

**NEW QUESTION: 3**You are a licensing specialist. Your customer is Contoso Pharmaceuticals, a growing pharmaceutical company. **Company Background** Contoso Pharmaceuticals has two divisions in the United States, one division in Switzerland, and two divisions in England. The company is purchasing a small competitor in Germany that has a Select License agreement at Level A for applications and systems. The agreement includes Software Assurance Membership. In the past year, Contoso Pharmaceuticals expanded much more rapidly than it had anticipated. The company's growth will likely continue. Additional competitors might be acquired. **Network Description** The Contoso Pharmaceuticals network contains 11,500 desktops. The desktops run Microsoft Windows XP Professional. Desktops in most locations run Microsoft Office Professional. Desktops in some locations run third-party applications. The company network contains Microsoft Exchange servers and Microsoft Windows servers. **Current Licensing Solution** Contoso Pharmaceuticals holds a Select 6.x License agreement. When the company entered the Select License agreement, the number of forecasted purchases qualified Contoso Pharmaceuticals for the Level B discount in applications and systems. As the company approaches its first anniversary, it has accumulated 20,000 points in the Applications pool and 12,000 points in the Systems pool. **Business Goals** Each division plans and budgets its own software purchases. This purchase model works for Contoso Pharmaceuticals, but the executive team wants to look for ways to optimize the company's information technology (IT) investments and to ensure a more predictable budget. The executive team is evaluating whether it should manage the IT environment and budget for the entire enterprise and standardize all desktops to use the same applications and operating systems. The team wants to save money and to ensure that collaboration among divisions and locations is more efficient.

The team does not know if the benefits of standardization will outweigh the costs of training end users and the IT department to use the new software. End of repeated scenario You need to recommend the most appropriate licensing solution for the German division once the acquisition is complete. What should you recommend? **A.** The German division should sign a new Select License agreement and enrollment at the same level as Contoso Pharmaceuticals. **B.** The German division should sign a new Select License agreement at the same level as Contoso Pharmaceuticals. **C.** The German division should continue to purchase software under its current agreement until the agreement expires. **D.** The German division should sign a new enrollment under the Contoso Pharmaceuticals agreement. **Answer: D**
