**Answer: B**

**NEW QUESTION: 3** DRAG DROP A company has an Active Directory Domain Services (AD DS) domain and a SharePoint environment. The SharePoint environment includes a team site for each department. All domain users have Read permissions on the root site. Currently only Human Resources department members have access to the Human Resources team site. You have the following requirements for the Human Resources site: Employees who are not members of the Human Resources department can view only content -that is not marked as sensitive. Human Resources department members can view all content. -You need to configure permissions for the Human Resources site. Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)  
Select and Place:  
**Answer:** Explanation: Explanation:  
Note: \* Incorrect: "The Limited Access permission level is designed to be combined with fine-grained permissions to give users access to a specific list, document library, item, or document, without giving them access to the entire site. However, to access a list or library, for example, a user must have permission to open the parent Web site and read shared data such

as the theme and navigation bars of the Web site. The Limited Access permission level cannot be customized or deleted""Limited Access" allows no direct access to site content at all, but is intended to allow users to traverse the site in order to access the items within it that they have explicit permissions to see.Reference: Permission levels and permissions
