NEW QUESTION: 2A company has four territory managers. Ten salespeople report to each manager.Territory managers need to be able to see records related to each salesperson that they manage. Salespeople must be able to see only their own records.What should you implement?**A.** Field-level security**B.** Active Directory groups**C.** Role-based security**D.** App-based security**Answer: D**Explanation:Reference:

<https://docs.microsoft.com/en-us/learn/modules/recognize-dynamics-365-security/6-security-model-driven-apps>

NEW QUESTION: 3**A.** Yes**B.** No**Answer: B**

NEW QUESTION: 4Click to expand each objective. To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar.When you are finished performing all the tasks, click the 'Next' button.Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam.OverviewThe following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.Scoring is based on the outcome of performing the tasks stated

in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab you may start the lab by clicking the Next button. You plan to store media files in the rg1lod7523691n1 storage account. You need to configure the storage account to store the media files. The solution must ensure that only users who have access keys can download the media files and that the files are accessible only over HTTPS. What should you do from Azure portal? **Answer:** Explanation: See solution below. Explanation We should create an Azure file share. Step 1: In the Azure portal, select All services. In the list of resources, type Storage Accounts. As you begin typing, the list filters based on your input. Select Storage Accounts. On the Storage Accounts window that appears. Step 2: Locate the rg1lod7523691n1 storage account. Step 3: On the storage account page, in the Services section, select Files. Step 4: On the menu at the top of the File service page, click + File share. The New file share page drops down. Step 5: In Name type myshare. Click OK to create the Azure file share.
