NEW QUESTION: 2You have an on-premises network that uses an IP address space of 172.16.0.0/16. You plan to deploy 25 virtual machines to a new Azure subscription. You identify the following technical requirements. * All Azure virtual machines must be placed on the same subnet subnet1. * All the Azure virtual machines must be able to communicate with all on-premises servers. * The servers must be able to communicate between the on-premises network and Azure by using a site-to-site VPN. You need to recommend a subnet design that meets the technical requirements. What should you include in the recommendation? To answer, drag the appropriate network addresses to the correct subnet. Each network address may be used once, more than once or not at all. You may need to drag the split bar between panes or scroll to view content. **NOTE:** Each correct selection is worth one point. **Answer:** Explanation:Explanation

NEW QUESTION: 3DRAG DROP You have an existing Office 365 subscription. Users report that they cannot create meetings that contain dial-in phone numbers. You need to implement a solution that enables users to create meetings that include dial-in phone numbers for the appropriate regions. Which Microsoft Skype for Business component should you implement for each capability? To answer, drag the appropriate components to the correct capabilities. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. **NOTE:** Each correct selection is worth one point.

Answer: Explanation:Box1 Phone System in Office 365 (Cloud PBX) includes the call waiting feature. Box2 To enable calls to landlines and mobile phones, Phone System can be connected to the PSTN by purchasing Calling Plan, or using on-premises PSTN connectivity, where software on-premises connects with your existing telephony infrastructure. Box3 Phone System in Office 365 (Cloud PBX) includes the call delegation and call on-behalf feature. Box4 Skype Meeting Broadcast is a feature of Skype for Business Online and Office 365 that enables you to schedule, produce, and broadcast meetings or events to online audiences up to 10,000 attendees. Box5 Skype for Business and Microsoft Teams includes the audio conferencing feature to allow people can call into Skype for Business or Microsoft Teams meetings using a phone, instead of using the Skype for Business or Microsoft Teams app on a mobile device or PC.
