NEW QUESTION: 1**HOTSPOT****Answer:** Explanation:Explanation:If you want to view the contents of the computer's internal drives from File Explorer when you run Windows To Go from USB1, you have to launch an elevated command prompt, run diskpart and then execute the List disk command. You now have to select the internal disk using the sel disk command, and then enter the online disk command.Configuring the attributes volume option from DiskPart allows you to display, set, or clear the attributes of a volume.

NEW QUESTION: 2Which of the following risks is represented in the risk appetite of an organization?**A.** Inherent**B.** Residual**C.** Audit**D.** Control**Answer: B**Explanation:Residual risk is unmanaged, i.e., inherent risk which remains uncontrolled. This is key to the organization's risk appetite and is the amount of residual risk that a business is living with that affects its viability. Hence, inherent risk is incorrect. Control risk, the potential for controls to fail, and audit risk, which relates only to audit's approach to their work, are not relevant in this context.

NEW QUESTION: 3Considering the potential impact of behavioral contrast, what is a likely outcome when there is an effective program targeting compliance at school when no formal program is implemented at home? Compliance at home would be predicted to:**A.** increase.**B.** be more variable.**C.** decrease.**D.** stay the same.**Answer: C**
