NEW QUESTION: 2In 2001, Continental Supply Company was formed to provide drilling equipment and supplies to contractors and oilfield production companies located throughout the United States. At the end of 2005, Continental Supply created a wholly owned foreign subsidiary, International Oilfield Incorporated, to begin servicing customers located in the North Sea. International Oilfield maintains its financial statements in a currency known as the local currency unit (LCU). Continental Supply follows U.S. GAAP and its presentation currency is the U.S. dollar. For the years 2005 through 2008, the weighted-average and year-end exchange rates, stated in terms of local currency per U.S. dollar, were as follows: International Oilfield accounts for its inventory using the lower-of-cost-or-rnarlcet valuation method in conjunction with the first-in, first-out, cost flow assumption. All of the inventory on hand at the beginning of the year was sold during 2008. Inventory remaining at the end of 2008 was acquired evenly throughout the year. At the beginning of 2006, International Oilfield purchased equipment totaling LCU975 million when the exchange rate was LCU 1.00 to SI. During 2007, equipment with an original cost of LCU 108 million was totally destroyed in a fire. On June 30, 2008, International Oilfield purchased equipment totaling LCU 225 million when the exchange rate was LCU 1.25 to \$1.
