NEW QUESTION: 1 Which of the following is an output of Close Procurements?
A. Managing stakeholder expectations
B. Accepted deliverables
C. Performance reports
D. Organizational process assets updates
Answer: D
Explanation: Explanation/Reference: Explanation: 12.4.3.2 Organizational Process Assets Updates Elements of the organizational process assets that may be updated include, but are not limited to: Procurement file. A complete set of indexed contract documentation, including the closed contract, is prepared for inclusion with the final project files. Deliverable acceptance. Documentation of formal acceptance of seller-provided deliverables may be required to be retained by the organization. The Close Procurement process ensures this documentation requirement is satisfied. Requirements for formal deliverable acceptance and how to address nonconforming deliverables are usually defined in the agreement. Lessons learned documentation. Lessons learned, what has been experienced, and process improvement recommendations, should be developed for the project file to improve future procurements. Process: 12.4 Close Procurements Definition: The process of completing each project procurement. Key Benefit: The key benefit of this process is that it documents agreements and related documentation for future reference. Inputs Project management plan Procurement documents Tools & Techniques Procurement audits Procurement negotiations Records management system Outputs Closed procurements Organizational process assets updates
