As we have not specified any range.slider control comes with various options/properties which can be set. Here are few of them.1.min : Minimum value allowed for the slider.2.max : Maximum allowed value for the slider.3.step : How much you want to increment when you slide. Default is 1. 4.value : set default value of the slider.Reference: Implement jQuery UI slider with ASP.NET <http://www.jquerybyexample.net/2010/09/implement-jquery-ui-slider-with-aspnet.html>

NEW QUESTION: 3After an assessment, auditors recommended that an application hosting company should contract with additional data providers for redundant high speed Internet connections.Which of the following is MOST likely the reason for this recommendation? (Select TWO).**A. To allow for a hot site in case of disaster****B. To allow load balancing for cloud support****C. To improve intranet communication speeds****D. To allow for business continuity if one provider goes out of business****E. To eliminate a single point of failure****Answer: D, E**Explanation:A high-speed internet connection to a second data provider could be used to keep an up-to-date replicate of the main site. In case of problem on the first site, operation can quickly switch to the second site. This eliminates the single point of failure and allows the business to continue uninterrupted on the second site. Note: Recovery Time Objective The recovery time objective

(RTO) is the maximum amount of time that a process or service is allowed to be down and the consequences still be considered acceptable. Beyond this time, the break in business continuity is considered to affect the business negatively. The RTO is agreed on during BIA creation.

NEW QUESTION: 4 Company XX and Company YY are the only two providers of electricity to Country M. The demand for electricity is price inelastic which means that buyers regard it as essential and therefore demand for electricity does not change significantly if the average price of electricity changes. However customers will switch between suppliers within a year to get cheaper electricity. Using Game Theory place the long-run revenue impact on each firm of each of the following pricing decisions. **Answer:** Explanation:
