You might think the preparation of D-GAI-F-01 real exam is a tough task, but you will pass exam with the help of our website.

NEW QUESTION: 1 Which of the following are valid SNS delivery transports? Choose 2 answers
A. UDP B. SMSC. Named Pipes D. DynamoDBE. HTTP
Answer: B, E
Explanation: Explanation
<https://aws.amazon.com/sns/faqs/Q:> What are the different delivery formats/transports for receiving notifications? In order for customers to have broad flexibility of delivery mechanisms, Amazon SNS supports notifications over multiple transport protocols. Customers can select one of the following transports as part of the subscription requests: "HTTP", "HTTPS" - Subscribers specify a URL as part of the subscription registration; notifications will be delivered through an HTTP POST to the specified URL. "Email", "Email-JSON" - Messages are sent to registered addresses as email. Email-JSON sends notifications as a JSON object, while Email sends text-based email. "SQS" - Users can specify an SQS standard queue as the endpoint; Amazon SNS will enqueue a notification message to the specified queue (which subscribers can then process using SQS APIs such as ReceiveMessage, DeleteMessage, etc.). Note that FIFO queues are not currently supported. "SMS" - Messages are sent to registered phone numbers as SMS text messages.

NEW QUESTION: 2 **A. POP3 B. SMTP C. HTTP D. IPsec E. SNMP**
Answer: A, B, C
