With experienced experts to compile and verify C1000-174 training materials, the quality can be guaranteed, Passing the C1000-174 certification can prove that you boost both the practical abilities and the knowledge and if you buy our C1000-174 latest question you will pass the C1000-174 exam smoothly.

After one year, the clients can enjoy 50 percent discounts [C1000-174](#) and the old clients enjoy some certain discounts when purchasing As the saying goes, knowledge has no limits.

**NEW QUESTION: 1** 공유 책임 모델에서 AWS의 책임은 무엇입니까?**A.** Amazon EC2 인스턴스에서 실행 중인 운영 체제 패치.**B.** 보안 그룹 규칙을 업데이트하여 취약한 포트로의 트래픽을 차단합니다.**C.** 네트워크 ACL을 업데이트하여 취약한 포트로의 트래픽을 차단합니다.**D.** 기본 EC2 호스트에서 펌웨어 업데이트.**Answer: D**

**NEW QUESTION: 2** You have the dataset shown in the following exhibit. You need to ensure that the visual shows only the 10 cities that have the highest sales profit. What should you do?**A.** Add a calculated column to the table that uses the TOPN function. In the visual, replace Sales Profit with the calculated column.**B.** Add a calculated column to the table that returns the city name if the city is in the top 10, otherwise the calculated column will return "Not in Top 10". In the visual, replace Sales Profit with the calculated column.**C.** Add a Top N filter to the visual.**D.** Configure the Sales Profit measure to use the RANKX function.**Answer: C**  
Explanation: Power BI Top N Filters are useful to display the top performing records, and Bottom N filters are helpful to display the least performing records. For example, we can display top or bottom 10 products by orders or sales. Note: \* Select the Column you want to display the Top Sales Profit\* Then change the Filter Type of that Column to Top N\* Fill in Top / Bottom number field\* And lastly drag to the By Value field your Sales Profit

<https://www.tutorialgateway.org/power-bi-top-10-filters/> Topic 1, Litware, Inc. Case Study This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided. To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study. At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam.

After you begin a new section, you cannot return to this section. To start the case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

**Overview** Litware, Inc. is an online retailer that uses Microsoft Power BI dashboards and reports. The company plans to leverage data from Microsoft SQL Server databases, Microsoft Excel files, text files, and several other data sources. Litware uses Azure Active Directory (Azure AD) to authenticate users.

**Existing Environment** Sales Data Litware has online sales data that has the SQL schema shown in the following table. In the Date table, the dateid column has a format of yyyyymmdd and the month column has a format of yyyyymm. The week column in the Date table and the weekid column in the Weekly\_Returns table have a format of yyyyww. The regionid column can be managed by only one sales manager.

**Data Concerns** You are concerned with the quality and completeness of the sales data. You plan to verify the sales data for negative sales amounts.

**Reporting Requirements** Litware identifies the following technical requirements:

- \* Executives require a visual that shows sales by region.
- \* Regional managers require a visual to analyze weekly sales and returns.
- \* Sales managers must be able to see the sales data of their respective region only.
- \* The sales managers require a visual to analyze sales performance versus sales targets.
- \* The sales department requires reports that contain the number of sales transactions.

\* Users must be able to see the month in reports as shown in the following example: Feb 2020.\* The customer service department requires a visual that can be filtered by both sales month and ship month independently.

**NEW QUESTION: 3** Refer to the exhibit. On which storage access topology would a switched Fibre Channel SAN be configured to transport block storage between edge compute and storage devices?  
**A.** Topology 1 **B.** Topology 2 only **C.** Topology 2 or Topology 3 **D.** Topology 3 only  
**Answer: C**

**NEW QUESTION: 4** You manage two datacenters in different geographic regions and one branch office. You plan to implement a geo-redundant backup solution. You need to ensure that each datacenter is a cold site for the other. You create a recovery vault. What should you do next?  
**A.** Set all virtual machines to DHCP. **B.** Create mappings between the virtual machine (VM) networks. **C.** Prepare System Center Virtual Machine Manager (SCVMM) servers. **D.** Generate a vault key. **E.** Upload a certificate to the vault. **F.** Install the provider.  
**Answer: D**  
**Explanation/Reference:**  
**Explanation:** Step 1: Create a Recovery Services vault  
Step 2: Set up the source environment  
Install the Azure Site Recovery Provider on VMM servers, and discover and register servers in the vault.  
1. Click Prepare Infrastructure > Source.  
2. In Prepare source, click + VMM to add a VMM server.  
3. In Add Server, check that System Center VMM server appears in Server type.  
4. Download the Azure Site Recovery Provider installation file.  
5. Download the registration key. You need this when you install the Provider. The key is valid for five days after you generate it.  
Step 3: Set up the target environment  
Step 4: Set up a replication policy
