**Answer: A**  
**Explanation:** Topic 11, Litware, Inc. Company Background  
Corporate Information  
Litware, Inc. is a provider of managed services. Litware has 290 employees. It expects an increase of 15 to 30 new employees each year.  
Physical Locations  
Litware has a main office and 10 branch offices. The main office is located in the United States. The branch offices are located in Japan, Korea, and Spain. The company's main office makes all technology decisions.  
Existing Environment  
Existing Licensing Solution  
Litware purchases licenses through the Open License program and the OEM program. The cost of software licenses prevents Litware from implementing new technologies.  
Existing IT Environment  
The desktops run different version of Windows and Microsoft Office. Some of the desktops came preinstalled from the manufacturer. Litware has an external facing Web portal that runs on a third-party application. The Web portal runs on a Windows Server 2008 R2 server and has SQL Server installed. The company's customers use the Web portal. The IT department upgrades software every two years and replaces one-third of the desktops every year.  
Business Requirements  
Problem Statements  
An administrator and a developer are required full time to manage and perform updates to the third-party application and the Web portal.  
Planned Software Changes  
During the next three years, Litware plans to install the current versions of the following software:-----  
Windows Server  
Windows 7 Professional  
Microsoft Exchange Server  
Microsoft System Center Configuration Manager  
Microsoft System Center Operations Manager  
Microsoft SQL Server  
Microsoft Office Professional Plus  
Microsoft Communications Server  
Microsoft SharePoint Server  
Microsoft Forefront Protection Suite  
Business Goals  
Litware has the following business goals:- -----  
Implement a software purchasing process to improve compliance and prevent over-purchasing  
Migrate the Web portal to a Microsoft solution  
Reduce the costs associated

with migrating the Web portal Reduce the costs of upgrading to the latest version of Office  
Ensure that external users are authenticated when they connect to the Web portal Standardize  
the desktop operating systems Standardize the desktop applications by using an imaging  
technology
