Then Oracle Cloud best torrent actively presses ahead with the infrastructure---quality development, App online version of 1z0-931-23 study quiz - Be suitable to all kinds of equipment or digital devices.

**NEW QUESTION: 1A. Option B. Option C. Option D. Option E. Answer: E**  
Explanation: The SFC Scan tool starts the System File Repair Wizard and lets you repair system files that are preventing the installed Windows operating system from starting. The System File Repair Wizard can automatically repair system files that are corrupted or missing, or it can prompt you before it performs any repairs. File Restore lets you try to restore files that were accidentally deleted or that were too big to fit in the Recycle Bin. File Restore is not limited to regular disk volumes, but can find and restore files on lost volumes or on volumes that are encrypted by BitLocker. Disk Commander lets you recover and repair disk partitions or volumes. Computer Management is a collection of Windows administrative tools that help you troubleshoot a problem computer. You can use the Computer Management tools in DaRT to view system information and event logs, manage disks, list autoruns, and manage services and drivers. The Computer Management console is customized to help you diagnose and repair problems that might be preventing the Windows operating system from starting.
