NEW QUESTION: 1You are working on a medium sized website for a company that organizes art fairs. On their website, they have three types of pages. One type of page is for recruiting investors in the company. Another type of page is for selling both spaces to artists via ecommerce. And the third type of page is promoting the art fairs to the general public. The company has received feedback that the site is confusing, disorganized, and difficult to navigate through. How can this be corrected?**A.** Create a site map that links to all of the assets within the site.**B.** Create and apply a set of custom page templates, one for each type of page on the site.**C.** Redesign the main page template, and apply it to all forms, blog pages, and ecommerce pages.**D.** Create separate CCS3 files to organize the information on each type of page.**Answer: B**

NEW QUESTION: 2What does the command query inclexcl show?**A.** Which users have restore privileges for specific files.**B.** Details of which files are backed up.**C.** The include/exclude statements in the order they will be processed.**D.** The specific order in which files are backed up.**Answer: C****Explanation:**The query inclexcl command displays a list of include-exclude statements in the order in which they are processed during backup and archive operations. The list displays the type of option, the scope of the option (archive, all, etc.), and the name of the source file.

NEW QUESTION: 3Select each use case on the left and drag it to the appropriate router on the right.**Answer:** Explanation:
