**Explanation:** Explanation Phishing presents a link that looks like a valid trusted resource to a user. When the user clicks it, the user is prompted to disclose confidential information such as usernames/passwords. Phishing elicits secure information through an e-mail message that appears to come from a legitimate source such as a service provider or financial institution. The e-mail message may ask the user to reply with the sensitive data, or to access a website to update information such as a bank account number.
