NEW QUESTION: 1 Success is measured by benefits realization for a: **A.** strategic plan **B.** program **C.** project **D.** portfolio **Answer: D**
Explanation: Explanation/Reference: Explanation: 1.4.2 Portfolio Management A portfolio refers to projects, programs, subportfolios, and operations managed as a group to achieve strategic objectives. The projects or programs of the portfolio may not necessarily be interdependent or directly related. For example, an infrastructure firm that has the strategic objective of "maximizing the return on its investments" may put together a portfolio that includes a mix of projects in oil and gas, power, water, roads, rail, and airports. From this mix, the firm may choose to manage related projects as one program. All of the power projects may be grouped together as a power program. Similarly, all of the water projects may be grouped together as a water program. Thus, the power program and the water program become integral components of the enterprise portfolio of the infrastructure firm.

NEW QUESTION: 2 Which is an example of a business related measurement? **A.** The number of passengers checked in **B.** The average time to response to change requests **C.** The number of problems resolved **D.** The average resolution time for incidents **Answer: A**

NEW QUESTION: 3 Michael has created two smart campaigns in two different programs. The flow for each smart campaign is shown below. Once a person achieves success (Influenced) in the 2020 Industry Predictions Ebook, Michael wants to send the person the invite email for the weekly demo.
