What a cruel and realistic society you may feel.

NEW QUESTION: 1A technician is tasked with performing a room readiness assessment in preparation for an immersive video endpoint. What are three Cisco best practices regarding lighting recommendations for the room? (Choose three.)**A.** Key lighting should be between 200 and 400 Lux with the endpoint powered on.**B.** Use direct lighting fixtures.**C.** The bulb

temperature should be between 4000 and 4100K.**D.** Shoulder lighting should not exceed two times the facial lighting values with the endpoint off.**E.** Within the camera field of view, the lighting for all parts of the room should not fluctuate more than 100 Lux.**F.** Avoid using dimming light control systems.**Answer: C,D,E**Explanation:Explanation/Reference:Reference: http://www.cisco.com/en/US/solutions/collateral/ns669/c07-643449-00_tp_dg.pdf
Explanation: In summary, Immersive Cisco TelePresence rooms should be designed with lighting that is:● Kelvin color temperature of 4000 or 4100K to match the built-in Cisco TelePresence endpoint lighting, and to reproduce colors accurately on screen.● CRI of 82 to 100.● Facial lighting from 200 to 400 lux, with these values measured with the Cisco TelePresence endpoint off.● Shoulder lighting not to exceed twice the values of the facial lighting, and also measured with the Cisco TelePresence endpoint off.● Light in all areas of the room within the camera field of view should not fluctuate more than 100 lux within the room. In other words, lighting is evenly dispersed throughout the room. This includes lighting at the room walls, which should be equal to or less than the facial lighting and should differ no more than 100 from rest of the room.● Implementation of a dimming lighting control system is highly recommended to adjust the intensity of light in the room without needing to precisely calculate the overall lighting levels in advance, and to ensure reproducible results with preset lighting scenes.● Regardless of fixture choices, indirect fluorescent lighting fixtures provide the best results for ambience and amount of dispersed lighting, and asymmetric fixtures provide the most efficient and predictable option within the range of indirect fixtures available

NEW QUESTION: 2Sie haben einen Computer mit dem Namen Computer 1, auf dem Windows 10 ausgeführt wird.Sie aktivieren den Systemschutz und erstellen einen Wiederherstellungspunkt mit dem Namen Point1.Sie führen folgende Änderungen durch:* Fügen Sie dem Desktop vier Dateien mit den Namen File1.txt, File2.dll, File3.sys und File4.exe hinzu.Führen Sie ein Konfigurationsskript aus, das die folgenden vier Registrierungsschlüssel hinzufügt:- Key1 to HKEY_CURRENT_USER- Key2 to HKEY_CLASSES_ROOT- Key3 to HKEY_LOCAL_MACHINESYSTEM- Key4 to HKEY_CURRENT_CONFIGSie stellen Point1 wieder her. Welche Dateien und Registrierungsschlüssel werden entfernt? Wählen Sie zum Beantworten die entsprechenden Optionen im Antwortbereich aus.HINWEIS: Jede richtige Auswahl ist einen Punkt wert.**Answer:** Explanation:ErläuterungVerweise: <https://www.maketecheasier.com/what-system-restore-can-and-cannot-do-to-your-windows-system/>
<https://superuser.com/questions/343112/what-does-windows-system-restore-exactly-back-up-and-restore>
