NEW QUESTION: 2 You are a licensing specialist. Your customer is Tailspin Toys, a gift retailer. Company Background The peak sales season for Tailspin Toys is in July. During July, the number of employees increases by as much as 50 percent. During the remainder of the year, the company has a core staff of 300 employees. Network Description The Tailspin Toys network contains 300 desktops that run Microsoft Office 2000 Professional and the Core client access license (CAL). The number of desktops increases to a maximum of 450 during the peak sales season. When the staff increases to its highest level, many employees use desktops that were inactive for a long time. These desktops run older versions of software. The network contains five servers that run Microsoft Windows 2000 Server. One of the servers also runs Microsoft Systems Management Server 2.0. The company is planning the following technology changes: Deploy the latest version of Systems Management Server so that the latest version of Office Professional can be deployed and the company can manage its desktop count and other software. Current Licensing Solution The desktop software was licensed through an Open Business agreement that ended in 2002. Business Goals Tailspin Toys wants to use the latest technology to meet customer demands. However, the company requires flexibility in purchasing to meet its organizational needs.
