NEW QUESTION: 1You have a document in Microsoft OneDrive that is encrypted by using Microsoft Azure Information Protection as shown in the following exhibit. Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point. **Answer:** Explanation: ExplanationBox 1: If you copy the file from OneDrive to your internet connected computer, you can open the document for up to 30 days. This is because the "Number of days the content is valid" setting is set to 30 days. Box 2: If you email the document to a user outside your organization, the user cannot open the document. To open the document, the user would need to be added to the Users list and assigned permission. With the configuration in the exhibit, only the user listed in the Users list and the creator of the document can open the document. Reference:
