Trial use before payment.

NEW QUESTION: 1 CORRECT TEXT Fill in the blank with the appropriate term. A _____ is a technique to authenticate digital documents by using computer cryptography. **Answer:** signature
Explanation: A digital signature is a technique to authenticate digital documents by using computer cryptography. A digital signature not only validates the sender's identity, but also ensures that the document's contents have not been altered. It verifies that the source and integrity of the document is not compromised since the document is signed. A digital signature provides the following assurances: Authenticity, Integrity, and Non-repudiation. Microsoft Office 2007 Excel and Word provide a feature known as Signature line to insert a user's digital signature on a document.
