Unlike those complex and esoteric materials, our SnowPro-Core study materials are not only of high quality, but also easy to learn.

NEW QUESTION: 1class Fibonacci extends RecursiveTask<Integer> {final int n;Fibonacci (int n) { this.n = n }Integer compute () {if (n <= 1)return n;Fibonacci f1 = new Fibonacci (n - 1);f1.fork; Fibonacci f2 = new Fibonacci (n - 2);return f2.compute() + f1.join; // Line **}}Assume that line ** is replaced with:return f1.join() + f2.compute(); // Line ****A. Option AB. Option EC. Option BD. Option CE. Option DF. Option F****Answer: C**Explanation:Changing the code is not useful. In the original code (return f2.compute() + f1.join;) f1 and f2 are run in parallel. The result is joined. With the changed code (return f1.join() + f2.compute();) f1 is first executed and finished, then is f2executed.Note 1: The join method allows one thread to wait for the completion of another.If t is a Thread object whose thread is currently executing,t.join();causes the current thread to pause execution until t's thread terminates.Note 2: New in the Java SE 7 release, the fork/join framework is an implementation of theExecutorService interface that helps you take advantage of multiple processors. It is designed forwork that can be broken into smaller pieces recursively. The goal is to use all the availableprocessing power to enhance the performance of your application.As with any ExecutorService, the fork/join framework distributes tasks to worker threads in athread pool. The fork/join framework is distinct because it uses a work-stealing algorithm. Workerthreads that run out of things to do can steal tasks from other threads that are still busy.Reference: The Java Tutorials, Joins, Fork/Join

NEW QUESTION: 2Which technology differentiates a data center designed around Cisco equipment versus another vendor?**A. VSANsB. NPVC. NPIVD. FCoE****Answer: A**

NEW QUESTION: 3You need to recommend a solution to meet the device management requirements.What should you include in the recommendation? To answer, select the appropriate options in the answer area.NOTE: Each correct selection is worth one point.

Answer: Explanation:Reference:
