NEW QUESTION: 1 Which Microsoft Office suite can be used to deploy Office 2010 applications as RemoteApp programs? (Choose all that apply.)
A. Office Standard 2010
B. Office Professional Plus 2010
C. Office Professional 2010
D. Office Home and Business 2010
E. Office Home and Student 2010
Answer: A,B

NEW QUESTION: 2 A Datum plans to implement the VDI. You need to recommend a solution to ensure that the sales office users can access their corporate desktop from a company-owned iPad. The solution must be the most cost-effective solution today and must ensure that the company meets the licensing requirements of the planned IT strategy. Which two licenses should you include in the recommendation? Each correct answer presents part of the solution.
A. A Windows 8.1 Enterprise Upgrade license for each tablet
B. An RDS User CAL for each sales office user
C. A Windows Companion Subscription (CSL) license for each primary device
D. A Windows Virtual Desktop Access (VDA) license for each tablet
Answer: B,D
Explanation: A: VDA licensing is the recommended license for VDI access devices that do not qualify for SA. VDA provides organizations with the ability to license Windows for use via devices that do not traditionally come with a Windows license, such as thin clients, smartphones, and tablet devices. Organizations can also use VDA to license devices that the organization does not own, such as employees' home PCs and contractor devices. D: The RDS CAL is the primary license for Microsoft VDI. It offers the flexibility to deploy both VDI and RDS Session Virtualization so that you can provide access to full desktop and shared desktop experiences. You must purchase one RDS CAL for each device or user that accesses VDI. A* Scenario: A Datum plans to implement a Virtual Desktop Infrastructure (VDI) by using Remote Desktop Services (RDS) on Windows Server 2012 R2. In line with the VDI implementation, all of the sales office users will be issued a tablet. A Datum wants to enable the users to work from their home computer as well, as the need arises. In addition, the company plans to enable a Bring Your Own Device (BYOD) strategy.

NEW QUESTION: 3 What information in a FAT file system directory entry refers to the location of

a file on the hard drive?**A.** The fragmentation settings**B.** The file attributes**C.** The starting cluster**D.** The file size
Answer: C

NEW QUESTION: 4You need to prepare the environment to ensure that the web administrators can deploy the web apps as quickly as possible.Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.**Answer:** Explanation:ExplanationStep 1:First you create a storage account using the Azure portal.Step 2:Select Automation options at the bottom of the screen. The portal shows the template on the Template tab.Deploy: Deploy the Azure storage account to Azure.Step 3:Share the template.Scenario: Web administrators will deploy Azure web apps for the marketing department. Each web app will be added to a separate resource group. The initial configuration of the web apps will be identical. The web administrators have permission to deploy web apps to resource groups.References:
