NEW QUESTION: 1Your client wants to sort and rank candidates within the List view for a given requisition. This should be available only for New Zealand job submissions and should not be visible to candidates. You create a Candidate Ranking user-defined field. How must you configure it to meet this requirement? (Choose the best answer.)**A.** Contextualize it for New Zealand, make it available for the Recruiting Center only, and add it to the Personal Information form in the Candidate file.**B.** Contextualize it for New Zealand and add it to the Personal Information form in the Candidate file.**C.** Make it available for the Recruiting Center and add it to the Personal Information form in the Candidate file.**D.** Add it to the Personal Information form in the Candidate file.**Answer: C**

NEW QUESTION: 2You have a computer that runs Windows 10 Enterprise that has a local group policy as shown in the following graphic. Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point.**Answer:** Explanation: Explanation Windows Updates will be downloaded from Windows Server Update Services only. This is determined by the "Specify Intranet Microsoft Update Service Location" setting and the "Do not connect to any Windows Update Internet locations" setting both being 'Enabled'. In the "Specify Intranet Microsoft Update Service Location" setting, you can specify the name of the Windows Server Updates Services server. If a user is logged into the computer and an update requires a restart, the computer will restart when the user signs out. This is determined by the "No auto-restart with logged on users for schedule automatic updates" setting being enabled. This group policy setting creates a registry key named NoAutoRebootWithLoggedOnUsers and sets the value of the key to 1 (enabled). With this setting enabled, you should be aware that the computer should be restarted at the earliest opportunity in order to complete the installation of the Windows Updates.

NEW QUESTION: 3You need to pass a custom script to new Amazon Linux instances created in

your Auto Scaling group. Which feature allows you to accomplish this? **A.** EC2Config service **B.** User data **C.** IAM roles **D.** AWS Config **Answer: A**
