And our 201-450 study materials have helped so many customers pass the exam.

NEW QUESTION: 1When scheduling snapshots, what is the smallest snapshot frequency that can be selected?**A. SecondsB. MinutesC. DaysD. HoursAnswer: D**

NEW QUESTION: 2A DLP solution/implementation has three main components.Which of the following is NOT one of the three main components?**A. Discovery and classificationB. MonitoringC. AuditingD. EnforcementAnswer: C****Explanation:**Auditing, which can be supported to varying degrees by DLP solutions, is not a core component of them.Data loss prevention (DLP) solutions have core components of discovery and classification, enforcement, and monitoring. Discovery and classification are concerned with determining which data should be applied to the DLP policies, and then determining its classification level.Monitoring is concerned with the actual watching of data and how it's used through its various stages. Enforcement is the actual application of policies determined from the discovery stage and then triggered during the monitoring stage.

NEW QUESTION: 3**Note:** This question is part of a series of questions that use the same scenario, For your convenience the scenario is repeated in each question. Each question presents a different goal and answer choices, but the text of the scenario is the same in each question in this series.**Start of repeated scenario**You are creating reports for a car repair company. You have four datasets in Excel spreadsheets. Four workbook queries load the datasets to a data model. A sample of the data is shown in the Data Sample exhibit.The data model is shown in the Data Model exhibit.The tables in the model contain the following data: DailyRepairs has a log of hours and revenue for each day, workshop, and repair type. Every day, a log entry is created for each workshop, even if no hours or revenue are recorded for that day. Total Hours and Total Revenue are two measures defined in DailyRepairs. Total Hours sums the Hours column, and Total Revenue sums the Revenue column.Workshops has a list of all the workshops and the current and previous workshop managers. The format of the Workshop Manager column is always Firstname Lastname. A value of 1 in the IsLatest column indicates that the workshop manager listed in the record is the current workshop manager.RepairTypes has a list of alt the repair types.Dates has a list of dates from 2015 to 2018.**End of repeated scenario.**You create the column chart shown in the Pivot Chart exhibit.You need to ensure that the month axis is displayed chronologically.What should you do?**A. In the model, configure the Sort By Column setting for (Month) as [Date].B. In the model, configure the Sort By Column setting for [Month] as [MonthID].C. In PivotTable Fields, add [MonthID] to the Legend area.D. In PivotTable Fields, add [Date] to the Legend area.****Answer: B**
