NEW QUESTION: 1 You have a computer that runs Windows 7. You update the driver for the computer's video card and the computer becomes unresponsive. You need to recover the computer in the minimum amount of time. What should you do? **A.** Restart in safe mode and then roll back the video card driver. **B.** Start the computer from the Windows 7 installation media. Select Repair your computer and then select System Image Recovery. **C.** Restart in safe mode and then revert the computer to a previous restore point. **D.** Start the computer from the Windows 7 installation media. Select Repair your computer and then select System Restore. **Answer: A** Explanation: Explanation/Reference: Explanation: If you install a driver that causes your computer to become unstable, you should first attempt to roll back the driver. If this does not solve the problem, you can restore system files and settings by performing a system restore to restore the computer to its last system restore point. A system restore returns a computer system to a selected restore point. System restores do not alter user files. Note that a system restore is not the same as a System Image restore.

NEW QUESTION: 2 The Granite Health Plan is a coordinated care plan (CCP) that participates in the Medicare+Choice program. This information indicates that Granite **A.** must offer each of its enrollees a Medicare supplement **B.** places primary care at the center of the delivery system and focuses on managing patient care at all levels **C.** most likely must cover Medicare Part A, but not Medicare Part B, benefits **D.** must comply with all state-mandated benefits and provider requirements **Answer: B**

NEW QUESTION: 3 When designing a high availability solution with PowerHA SystemMirror, how should the network adapters be configured in order to provide redundant access to the network? **A.** A minimum of two distinct network adapters should be configured with IP Address Takeover for these adapters. **B.** PowerHA SystemMirror Enterprise Edition must be configured in order to support IP Address Takeover for virtual network adapters. **C.** One dual-port adapter can be used, providing Etherchannel is configured for each port. **D.** Both a physical and a virtual adapter are required to provide redundant access to the network. **Answer: A**
