NEW QUESTION: 1You installed Oracle Database 11g and are performing a manual upgrade of the Oracle9i database. As a part of the upgrade process, you execute the following script:SQL> @utlu111i.sqlWhich statement about the execution of this script is true?**A.** It must be executed only after AUTOEXTEND is set to ON for all existing tablespaces.**B.** It must be executed only after the SYSAUX tablespace has been created.**C.** It must be executed from the environment of the database that is being upgraded.**D.** It must be executed from the Oracle Database 11g environment.**E.** It must be executed from both the Oracle Database 11g and Oracle Database 9i environments.**Answer: C**Explanation:Script Name: utlu111i.SQL Used to: Pre-Upgrade Information Analyzes the database to be upgraded, detailing requirements and issues for the upgrade to Oracle Database 11g Release 1 (11.1)

NEW QUESTION: 2What is the main benefit of Utility Computing?**A.** better security**B.** better economics**C.** scalability**D.** high availability**Answer: B**Explanation:Explanation/Reference:The focus of utility computing is the business model on which providing the computing services are based.The main benefit of utility computing is better economics. Corporate data centers are typically underutilized. Utility computing allows companies to only pay for the computing resources they need, when they need them. Utility computing is very similar to public cloud computing, except perhaps it doesn't necessarily imply self-service, elastic capacity, or multi-tenancy. It does imply pay-per-use.Note: Utility computing is an on-demand approach that combines outsourced computing resources and infrastructure management with a

usage-based payment structure. It covers the packaging of computing resources, such as computation and storage, as a metered service similar to a physical public utility. Utility computing has the advantage of a low or no initial cost to acquire hardware as computational resources are essentially rented. Reference: Oracle Reference Architecture, Application Infrastructure Foundation, Release 3.0

NEW QUESTION: 3A. SnapshotsB. ReplicationC. File-Based BackupD. vSphere Storage APIs-Data ProtectionE. vSphere Data ProtectionAnswer: C,D,E
