Choose your iPhone Apps in iTunes and use the drag-and-drop function [H28-153_V1.0](#) to sync Huawei-certification exam files from your computer to the iPhone/iPad Via upload. Estruturit: From your computer: 1.

Come and choose our H28-153_V1.0 exam collection, Try free demo- Before Purchasing actual exam material, How can this Huawei H28-153_V1.0 braindump package "GUARANTEE" I will pass my H28-153_V1.0 exam?

Can you imagine how wonderful it is for you to set about your study at the first time (H28-153_V1.0 best questions), Our company specializes in compiling the Huawei H28-153_V1.0 exam bootcamp for workers, and we will be here waiting for helping you any time.

There are three versions of our H28-153_V1.0 learning question, PDF, PC and APP, When you want to learn something about H28-153_V1.0 training practice, our customer assisting will be available for you.

The H28-153_V1.0 exam study guide includes the latest H28-153_V1.0 PDF test questions and practice test software which can help you to pass the H28-153_V1.0 test smoothly.

NEW QUESTION: 1 Scenario: Florian Flowers BV Please read this scenario prior to answering the question Florian Flowers BV is an international agricultural company exporting flowers and seeds worldwide. Florian is headquartered in Rotterdam in the Netherlands, and has sales and distribution centers in over 60 countries worldwide. Several of these centers include administrative, manufacturing, and research facilities. To achieve full integration of their research capabilities with their development centers located in various climate zones, Florian wants to develop strong self-directed teams in each location. Florian also wants to define new business models that are profitable while reducing their impact on the environment. Florian management is deeply committed to ensuring that the company is a world leader in socially responsible seed development with a business strategy that focuses on profitability through environmentally friendly operating processes. Florians international operations are subject to various legal and regulatory requirements. In areas such as genetically modified seeds, governmental controls are strictly enforced and compliance is critical. Recently a competitor was heavily fined for violating the regulations in a country where it was developing pest-resistant seeds. The Governing Board is concerned, and as a result has approved the expenditure of resources to establish an Enterprise Architecture program. They have requested to be informed about the status of projects that could impact regulatory compliance. They also want to enable the corporate legal staff and auditors to analyze proposed architectures to ensure that they are within the legal guidelines for a given location. In addition, the research organization should be able to see that the architecture is appropriate for its needs. TOGAF 9 has been mandated as the guiding framework for the development and evolution of the Enterprise Architecture practice. Refer to the Florian Flowers BV Scenario Florian management has engaged you as the Lead Consultant to assess the current situation. You have been asked to recommend an approach that would enable the development of an architecture that addresses the needs of all these parties. Based on TOGAF 9, which of the following is the best answer? **A.** For those groups that have sufficient power and level of interest, a special report should be created that summarizes the key features of the architecture with respect to the particular location. Each of these reports should reflect the stakeholders' requirements. **B.** Each architecture activity should be developed using a consistent modeling approach that is uniform across all architecture projects. Each architecture should be defined based on this fixed set of models so that all concerned parties can examine the models to ensure that their issues and

concerns have been accessed.**C.** It would be beneficial to develop a stakeholder map that allows the architects to define groups of stakeholders that share common concerns. A set of views should be defined that addresses the concerns each group. Architecture models can then be created for each view to address the stakeholders' concerns.**D.** Depending on the nature of the architecture, a set of models should be created that can be used to ensure that the system will be compliant with the local regulations. Stakeholders should be able to view the models to see that their concerns have been properly addressed.**Answer: C**

NEW QUESTION: 2Which three features can be configured in advanced routing?**A.** Skill relaxation**B.** Queue prioritization**C.** Skill time**D.** Queue limit**E.** Queue overflow**F.** Queue segregation**Answer: A,B,E**

NEW QUESTION: 3如果以太网交换机中某个运行 STP 的端口不接收或转发数据,接收、处理并发送 BPDU ,进行地址学习,那么该端口应该处于 _____ 状态。**A.** Waiting**B.** Learning**C.** Blocking**D.** Disable**E.** Forwarding**F.** Listening**Answer: B**

NEW QUESTION: 4While teaching, an instructor comes across an important point. Which of the following shows how an instructor could BEST communicate this to the students? (Select TWO).**A.** Change the pitch of delivery**B.** Use a monotone delivery method**C.** Cover it just like the other material**D.** Use more pronounced hand gestures**E.** Highlight in the instructor's manual**Answer: A,D**
