But stabilizing job position is not so easy, Just think that you just need to spend some money for the C-C4H51-2405 exam, you will get the certificate of the business, and you [Dumps 300-820 Discount](#) not just have a more certificate than others, it's not only a skill, but also a chance.

**NEW QUESTION: 1**With DataStage Designer you CANNOT \_\_\_\_\_.  
**A.** Configure the deployment model  
**B.** Compile and execute the DataStage jobs  
**C.** Create and reuse Table Definitions  
**D.** Design jobs that extract, integrate, and transform the data for data warehouse  
**Answer: A**

**NEW QUESTION: 2**You start a client computer by using Pre-Boot Execution Environment (PXE). You load a default version of Windows Preinstallation Environment (Windows PE) that was created by using the Windows Assessment and Deployment Kit (Windows ADK). You have a file server that contains a shared folder. The folder contains an image of Windows 8. The folder is shared to the local Users group only. The computer has a system partition and a Windows partition. You need to apply a reference installation from a network share. Which command should you run before applying the image?  
**A.** net.exe  
**B.** wpeinit.exe  
**C.** drvinst.exe  
**D.** mshta.exe  
**Answer: B**  
Explanation: Wpeinit is a command-line tool that initializes Windows PE each time it boots. When Windows PE starts, Winpeshl.exe executes Startnet.cmd, which launches Wpeinit.exe. Wpeinit.exe specifically installs PnP devices, processes Unattend.xml settings, and loads network resources.  
Incorrect: Not D: Net.exe can be used to stop and start the IPv6 protocol.

**NEW QUESTION: 3**If an LSP's loose primary path includes the statement "include green" and "exclude red;" how does CSPF choose the LSP's path?  
**A.** CSPF prunes the green links and uses these links for the secondary path  
**B.** CSPF chooses only those links that are NOT members of the green admin group  
**C.** CSPF chooses a link that is a member of both administrative groups  
**D.** CSPF signals the LSP path over the green links only, and prunes all other links  
**Answer: D**
