NEW QUESTION: 1 Which of the following environment types are available in the Elastic Beanstalk environment. Choose 2 answers from the options given below
A. Multi-Instance
B. Load Balancing Autoscaling
C. SQS, Autoscaling
D. Single Instance
Answer: B, D
Explanation:
The AWS Documentation mentions In Elastic Beanstalk, you can create a load-balancing, autoscaling environment or a single-instance environment. The type of environment that you require depends on the application that you deploy. When you go onto the Configuration for your environment, you will be able to see the Environment type from there

NEW QUESTION: 2 Your company Research department includes client computers that have Windows 7 and Windows Vista installed on separate partitions in a dual-boot configuration. The computers boot into Windows 7 by default or users can choose to boot into Windows Vista during startup. The company management has decided that the Windows Vista partition must be deleted from all the computers. You need to ensure that the staff of the Research department are not prompted to select a boot option during startup and that Windows 7 is chosen automatically. What should you do?
A. In Windows 7, from an elevated command prompt, run `bcdedit /delete {default}`.
B. In Windows Vista, from an elevated command prompt, run `bcdedit /delete {current}`.
C. Select the Selective startup option button by using `msconfig.exe`.
D. In Windows Vista, from an elevated command prompt, run `bcdedit /delete {default}`.
Answer: B
