NEW QUESTION: 1The role of a wealth manager can be best defined as which of the following?
A. Make informed decision to the clients**B.** All of the above**C.** Develop a sound financial plan**D.** Review the financial plan
Answer: B

NEW QUESTION: 2Scenario:The Ministry of Food Hygiene (MFH) has a quality management system which contains a document control process to manage all documentation requirements. The document control process was created by the MFH Quality Manager, who now maintains all of MFH's documents and performs an organization-wide configuration management role. The MFH Quality Manager will administer the configuration management procedure for the Restructuring project since this must comply with the MFH document control process.What products will be impacted by this change?
A. All of the project's products which relate to or include services provided by the Facilities Division.**B.** No products would need to be changed but some will need to be removed from the project.**C.** All of the project's products created so far.**D.** Only those products created in the first three weeks of stage 3.
Answer: B

NEW QUESTION: 3Why are maintenance accounts a threat to operations controls?
A. Maintenance accounts are commonly used by hackers to access network devices.**B.** Maintenance account information could be compromised if printed reports are left out in the open.**C.** Maintenance might require physical access to the system by vendors or service providers.**D.** Maintenance personnel could slip and fall and sue the organization.
Answer: A
Explanation: Maintenance accounts are login accounts to systems resources, primarily networked devices. They often have the factory-set passwords that are frequently distributed through the hacker community.

NEW QUESTION: 4Your network contains a single Active Directory domain named contoso.com. The domain contains a member server named Server1 that runs Windows Server 2012 R2. Server1 has the Windows Server updates Services server role installed and is configured to download updates from the Microsoft Update servers. You need to ensure that Server1 downloads express installation files from the Microsoft Update servers. What should you do from the Update Services console?
A. From the Update Files and Languages options, configure the Update Files settings.**B.** From the Automatic Approvals options, configure the Update Rules settings.**C.** From the Products and Classifications options, configure the Products settings.**D.** From the Products and Classifications options, configure the Classifications settings.
Answer: A
Explanation: Explanation/Reference: Explanation: To specify whether express installation files are downloaded during synchronization In the left pane of the WSUS Administration console, click Options. In Update Files and Languages, click the Update Files tab. If you want to download express installation files, select the Download express installation files check box. If you do not want to download express installation files, clear the check box.
