NEW QUESTION: 1Of the following, the BEST method for ensuring that temporary employees do not receive excessive access rights is:**A.** discretionary access controls.**B.** role-based access controls.**C.** mandatory access controls.**D.** lattice-based access controls.**Answer: B****Explanation:** Explanation/Reference:Explanation:Role-based access controls will grant temporary employee access based on the job function to be performed. This provides a better means of ensuring that the access is not more or less than what is required. Discretionary, mandatory and lattice-based access controls are all security models, hut they do not address the issue of temporary employees as well as role-based access controls.

NEW QUESTION: 2**A.** Option **D****B.** Option **B****C.** Option **A****D.** Option **E****E.** Option **C****Answer: A**
